

- The D2C page fonts style and sizes to match the other pages (Eg: Home Page)

- Can this be made as the card like the one below:

- Can you help us with a thumbnail for the 2 programs above?

MOBILE OPTIMISATION:

- Footer alignment for all pages - Make it centre aligned and neat.
- The data set gap - if the cards are made, I think it will align well.
- Which program fits your child - buttons need to be aligned.
- If we can remove the negative white spaces, it will look more neat.

CALENDLY LINKS:

AI LAB: <https://calendly.com/tomoclubdemo/tomo-ai-lab-trial>

LIFE SKILLS: <https://calendly.com/tomoclubdemo/life-skills>

After school, my child usually...

A Heads straight to a screen — YouTube, games, or AI tools...

B Wants to talk or be around people — but sometimes struggles...

C Bit of both — depends on the day

Your child's situation is more specific? Describe it — we'll find the right fit, even if it's not one of our programs.

Sent

Got it — we'll reply within 24 hours with an honest recommendation.

- Can we have them submit their emails here? (Getting spammed a lot)

Tomo AI Lab

Create. Build. Question. Not just scroll.

"Your child won't just consume what AI makes — they'll question it, direct it, and build something real with it."

Create with AI — stories, images, ideas

Their creativity leads. AI is just the tool.

Build a real project every term

Capstone prototype — designed, built, presented by them.

Spot when AI is wrong — bias, fakes, hallucinations

What most adults miss. Your child will catch it.

Own their data and privacy

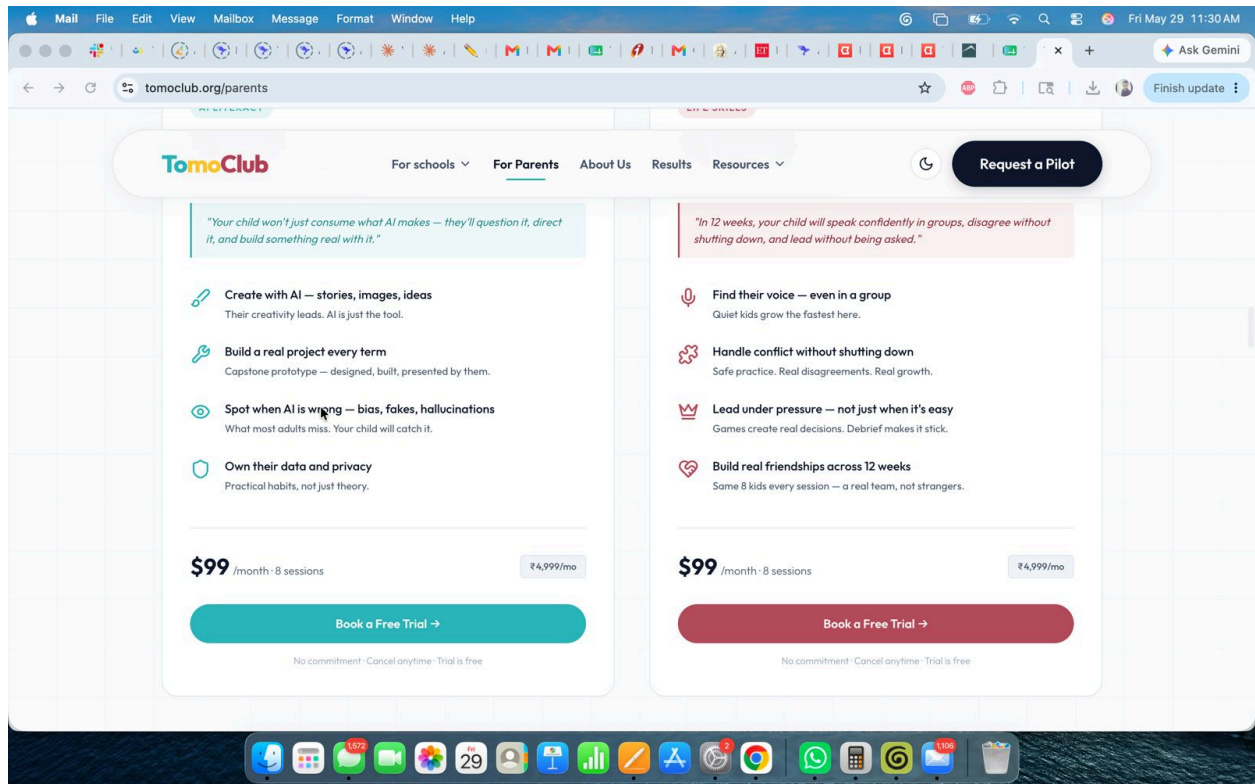

Practical habits, not just theory.

\$99 /month · 8 sessions

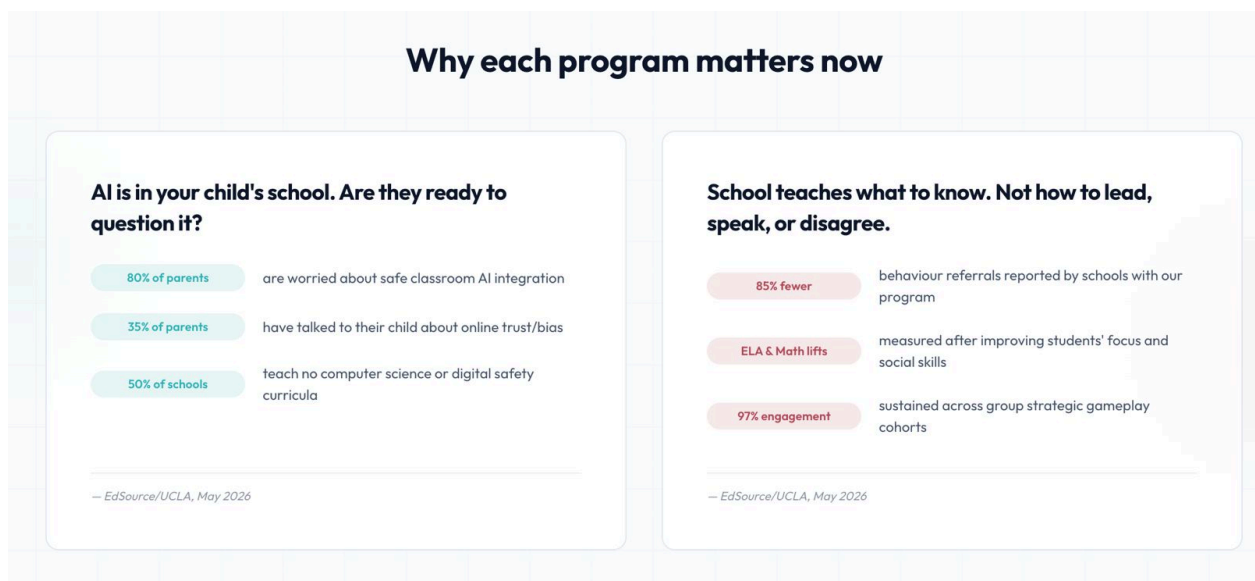

₹4,999/mo

- Content edit: "Build a Project within 8 weeks"

- Can we add a Secondary CTA - Know More (Scrolls down to the program section)

- Content Edit:
 - “AI is All around us”
 - “80% of parents are uncertain about what skills matter in the future”
 - “50% of schools don't teach digital and cyber safety”

● TOMO AI LAB 1 Concept spark (10 min) Bias, hallucinations, data privacy — one focused idea per session. 2 AI lab (25 min) Kids prompt real AI tools, test limits, compare outputs. Hands-on. 3 Ethics discussion (10 min) One real dilemma. Kids argue, vote, defend. Coach facilitates. 4 Reflection (15 min) Each child shares a takeaway — goes into the parent report.	● TOMO LIFE SKILLS 1 Warm-up (5 min) One quick question. Every child speaks in the first 90 seconds. 2 Skill frame (10 min) Today's skill — collaboration, conflict, leadership — with a real anchor. 3 Challenge game (30 min) Multiplayer team challenge. Kids reveal more in games than classrooms. 4 Coach debrief (15 min) Game → real life. Kids name their own patterns out loud.
